

15th

EMC Compo 2026

*International Workshop on the Electromagnetic
Compatibility of Integrated Circuits*

EMC Compo 2026 Sponsorship Opportunities

The International Workshop on the Electromagnetic Compatibility of Integrated Circuits (EMC Compo) was founded as a unique opportunity for experts on the electromagnetic compatibility of integrated circuits. To achieve stronger engagement by IC chip designers, along with tighter networking with EMC professionals, that can be expected in Japan round of EMC Compo. Attendees represent academic, industrial, and government organizations.

After the successful inaugural EMC Compo in INSA Toulouse, in January 1999, the workshop has continued its forum in a variety of venues across Europe and Asia. Its 14th round was held in Torino, October 2024, and the 15th round will be held in Okayama, December 2026. We expect to have a technical program with higher quality, invite more world-class researchers, draw an increased attendance, and make broader impacts to the community.

Sponsorship Categories

1. ***Sponsorship in general*** -- The payment will be wired to the Conference Service Inc., Japan. The invoice is issued by the conference if requested. The amount of money will be ranked typically from \$5,000 (Platinum sponsor.) The company can distribute their brochures and goods on-site at the conference. Also, another opportunity to name conference awards would be given on request, e.g. named best paper award and named best student award. An exhibiting booth would be also considered on request (limited places.)
2. ***Sponsorship by purpose*** – A sponsor company will directly receive invoice from and pay the associated amount to providers/distributors of specific expenses, e.g. for named coffee breaks, named breakfasts, named luncheon and a named banquet. We OC will see the amount of payment and thank the companies with sponsoring records. The company can distribute their brochures and goods on-site at the conference. An exhibiting booth would be also considered on request (limited places.)

Please provide company logos and permissions of usage for such as conference website, conference program and conference proceedings.

If you are interested in sponsoring EMC Compo 2026, please provide the following contact information to Prof. Makoto Nagata at nagata@cs.kobe-u.ac.jp so that we can follow up accordingly.
